SKILLS SUMMARY

IT and Language Skills

- Proficient in Microsoft Office
- Python, Java, HTML, PHP, CSS, MySQL, C, LaTeX, JavaScript
- Intermediate Fluency in speaking mandarin, basic reading and writing skills in mandarin

PROJECTS

PYTHON

Designed and coded a Covid API during my first year of university for one of my modules. Also created a registration GUI for my A-Level project.

JAVA

Created a back-end java package for a cycling race management system. Whilst doing so, I included the 4 main **OOP principles** such as abstraction, encapsulation, inheritance and polymorphism.

HTML

During one of my modules, we were assigned the task to create a website which allowed the user to play Tetris. I deployed a LAMP stack web server to a Microsoft Azure VM. I used a variety of languages such as **PHP, CSS** and **MySQL** within this project to fulfil the assessment specification.

EDUCATION

Computer Science, University of Exeter

I am currently in my third year of studying computer science to enhance my knowledge and gain more experience in computing.

A LEVELS - Chepstow Comprehensive School

- | | |
|-------------|-------------------------|
| • Physics A | • Computer Science A |
| • Maths B | • Welsh Baccalaureate A |

EXPERIENCE

RSPCA CHARITY SHOP

- Volunteered at a RSPCA charity shop in order to complete my D of E Silver
- Aid establishing fundamentals in new team members

ASDA WAREHOUSE

- Demonstrated an in-depth knowledge of key health and safety standards within the warehouse
- Learned how to pilot a LLOP safely around the warehouse

INTERESTS

- Member of the Exeter Computing Society, Exeter Tennis Society and the Exeter Powerlifting Society
- Keeping up with the newest technology and advancements
